PURPOSE/BACKGROUND:

Emergency service personnel have varying degrees of success in receiving and sending radio communications within certain types of multi-story residential and commercial occupancies. This bill would require such buildings to provide a minimum level of support for radio coverage for emergency service personnel. Input from emergency service agencies and from building industry representatives has been provided. The bill would apply to both new and existing buildings; existing buildings would be given time to be brought into compliance following notice from the City.

RECOMMENDATION:

ADOPTION at 5/16/2007 City Council meeting pursuant to the 5/1/2007 Recommending Committee.
